

# Engineering of Quantum Emitter Properties

## Thursday, November 28, 2024

### Session 2 - Kaiser-Leopold-Saal (10:45 AM - 12:15 PM)

time	[id] title	presenter
10:45 AM	[48] Deterministic photon-emitter interfaces in the solid state: fundamentals and applications	Prof. LODAHL, Peter
11:15 AM	[43] Quantum light sources based on InAs/InP nanowire quantum dots operating across the NIR	Dr DALACU, Dan
11:45 AM	[35] Engineering spin-photon entanglement with a single ion in an optical cavity	Prof. NORTHUP, Tracy Eleanor
