

# Engineering of Quantum Emitter Properties

## Thursday, November 28, 2024

### Session 4 - Kaiser-Leopold-Saal (4:00 PM - 5:00 PM)

time	[id] title	presenter
4:00 PM	[51] Efficient generation of entangled photons from nanowire quantum dots for quantum networks	Prof. REIMER, Michael
4:30 PM	[13] Selected InP-based quantum dots in photonic structures for non-classical light sources for telecommunication spectral range	Prof. MUSIAŁ, Anna
